

## 【课堂讲义】 Lesson 4 环境+政府支出+绝对化表达

### 环境类话题

#### 1 Fossil fuels = coal, gas, petrol / oil

- **Excessive use of fossil fuels** 过度使用化石燃料
- Coal, gas and petrol are **the most economical sources of power** for these countries to develop their economy. **To illustrate**, in India, 80 % of electricity is generated from coal.

#### 2 Factories & Cars / planes - exhaust fumes 尾气

- 1. Polluting substances  **air pollution**
- 2. Greenhouse gases  **global warming**
- **Burning fossil fuels excessively / excessive use of fossil fuels is the perpetrator of global warming**
  - *Burning excessive fossil fuels ...*
  - *Perpetrator, culprit* 罪魁祸首, 犯人

#### 3 Environmental problems / issues / challenges / difficulties / catastrophes:

- Small-scale : river pollution; waste disposal
- On a global scale : marine contamination, air pollution, global warming

#### 4 Invest in **green technologies** (环保技术):

- Develop **renewable / regenerable** resources
- such as **solar, wind and tidal** energy.

#### 5 emit 排放气体; discharge 排放污水

- Emit harmful gases 排放废气;
- Discharge wastewater 排放污水
- The emissions of greenhouse gases
- Greenhouse gas emissions

#### 6 **mitigate / curtail** global warming 缓解全球变暖

## 政府支出类话题- 政府要不要给钱（太空探索、投资艺术、免学费、为个人和公司的污染买单、prison）

- Governments = the government = nations = countries = states = policymakers = those in power = authorities
- Public budget / funding / money / capital 公共预算 = Financial support 财政支持
- The public = members of the public
- Collect money from taxpayers
- 限塑令 = 给塑料袋征税
  - tax plastic bags (v.)
  - impose a tax on plastic bags
  - Levy a tax on plastic bags
  - introduce extra taxes on plastic bags

 public money is limited / insufficient  
公共预算是有限的/ 不足的

 如果政府在某个领域花钱多了

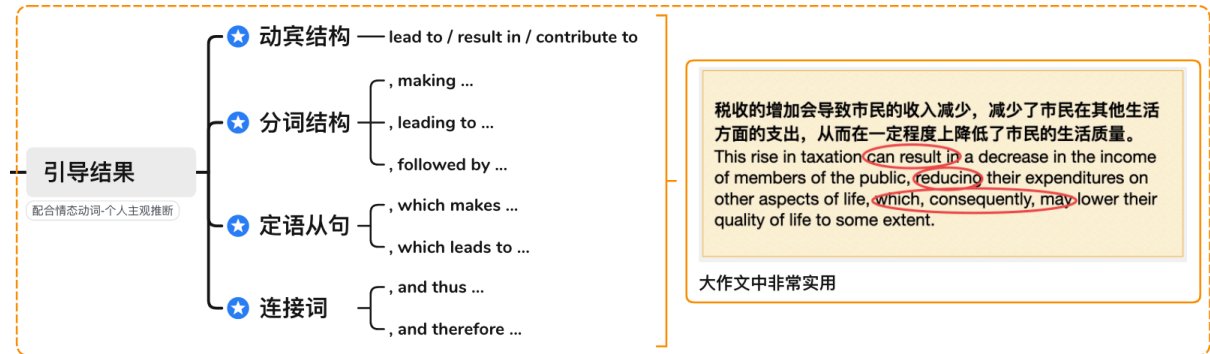

### 1 其他更有需要的领域钱少了

- Other much needed areas
- Other crucial areas
- Other essential fields
- Other critical fields
- Healthcare (=health system)
- Education
- Infrastructures (=hospitals, schools, roads, bridges..)
- Public facilities (=parks, squares, libraries..)
- Tighten public budgets invested in other much needed areas, such as ...

### 2 不得不向纳税人征税，收入减少，在其他领域的花费少了，生活质量受到影响

- To bear / cover this substantial cost, governments have to collect money from taxpayers, which may result in a rise in taxation (tax rates; taxes) .
- This rise in taxes **would lead to** a decline in income of members of the public, **reducing** expenditures on other aspects of life, **which** may lower their quality

of life to some extent.

### 重点练习篇目：

#### ● 话题逻辑链1：环境类

- 环境问题靠单独国家还是国际合作（cannot）
- 动物在食物、服装和药物的使用（no longer necessary）
- 人类是否应该介入动物灭绝（难题）
- 所有国家是否能立即少用化石能源（all countries）
- 提高化石燃料价格是否能解决问题（the best way）

#### ● 话题逻辑链2：政府支出类

- 大学学费是否应该每个人都免费（everyone）
- 政府要不要给公司和个人的污染买单
- 政府要不要投资艺术
- 政府要不要投资太空

#### ● 话题逻辑链3：科技类

- 电子书能不能取代纸质书（nobody, no need）
- 传统技能和生活方式是否没有意义（pointless）

#### ● 绝对化表达

- 全球化是否对每个人都好（everyone）

- 是否只有老员工才能升职 (only)
- 18岁之前是不是都要接受全日制教育 (all)
- 听说读写是否同等重要 (all, equally important)
