

【课堂讲义】教育话题

Children = Parents + School (teachers & peers) + Media (TV & Advertisement & Internet)

📌 父母主要影响到孩子的性格 + 品德的培养：

- **原因：** *This is because a child spends the most time with their parents and will naturally imitate their manners.*
- **影响：**
 - Families are believed to play a dominant role in the character and social development of children. *(It is believed 被认为)*
 - The lack of essential parental attention and recognition can be deleterious / detrimental to the growth of a child.
 - Some studies have proven that children growing in such a circumstance will tend to be introverted and less confident.
 - The quality like honesty and integrity must grow gradually, in a longitudinal process, inside a child under parental guidance.
 - The lack of moral education from parents can lead to juvenile delinquency. These parents may be too busy with work and **overlook the necessity of** teaching their child to **tell right from wrong**. So, the child is vulnerable to (=be easily affected by) detrimental influence from peers or gangs, therefore committing offences.

📌 老师主要给孩子传授知识，影响孩子的智力发展

- impart knowledge 传授知识
- Help children acquire knowledge 学习知识
- enhance intelligent development

📌 **Peers:** 竞争与合作 (Group activities vs. independent activities; 只要讨论到人与人之间的相处，一定离不开竞争与合作) (peer pressure = impact exerted by peers)

- **Competition = get motivated = be driven to achieve the best = ,which contribute to**
 - **从近地看：** Academic performance
 - **从远地看：** Later in life / as adults / when they grow up 长大成人 - competitive job market / the working world
 - The willingness to compete against others can motivate people to work hard, which can lead them to unleash/unlock their potential and make achievements.

- **Cooperation = social skills = communication skills = transpersonal skills** 人际关系, 社交
 - 1. Express oneself = deliver one's ideas clearly
 - 2. Understand people = develop empathy and care towards others 培养对他人的同理心和关心
 - 3. Learn how to deal with conflicts and confrontations through / by (通过) negotiation and compromises 处理争端

📌 Media -主要影响孩子的世界观worldview

- Children can learn effectively from television. 🙅 disagree + More distractions
- Violent / brutal acts 🙅 cannot tell right from wrong + imitate + commit crimes
- The value of money 金钱观 🙅 not appreciate the hard work needed to earn money + pester their parents (v.)

*大作文中提到 advertisements / advertising 都是指 commercials 商业广告, 不能讨论公益广告

Advertising targeting children

影响到身心健康 (mental fitness and physical health may decline)

Problem	Solution
• Advertising food and drinks that <u>have high levels of fat and sugar</u> causes child obesity 高热量高糖分 • children <u>pester</u> their parents to buy the products <u>advertised on TV and social media</u> • Children are unable to <u>differentiate</u> between the actual TV programs and commercials • Children have not yet learn that things <u>cost money</u> or that money needs to be earned • Advertising gives children <u>the illusion</u> that everyone has free access to all material things. 臆想, 诱惑 not appreciate the hard work needed to earn money 不够重视赚钱背后所付出的劳动 = 不知道 things cost money	• Food advertisements should encourage children to eat only healthy foods • Some countries have already banned advertising targeted at young children • It should be illegal to use children's film heroes and favorite cartoon characters in advertisements • Instead of consumerism, advertising could promote creativity and values such as friendship and honesty • Both schools and parents need to teach correct beliefs about consumption
