1 影响工作满意度的因素

工资
payment
remuneration
compensation

福利
benefits
perks

- 工资的重要性
 - 客观上：保证生活的质量
ensure the quality of life
 - 主观上：体现对个人价值的认同
approval of personal values
- 但是，工资并不是唯一影响人们选择工作的因素，还有很多其他的原因

●观点：在所有影响工作满意度的因素中，合理的薪酬是至关重要的。
Of all the factors contributing to job satisfaction, a reasonable payment is of critical importance.

●解释：不仅能让劳动者过上体面的生活，还能体现出用人单位对员工价值的重视。
Not only will it enable workers to live a decent life, but also it reflects the employer's appreciation of the employee's value.

●反向论证：如果一个人在投入到工作后，没有得到应有的奖励，那么他对工作感到失望甚至怨恨也是情有可原的。
If an individual did not receive the award he deserves after throwing himself into his work, it would be justifiable for him to feel disappointed or even resentful at his job.

- 休息 adequate breaks during workdays
- 放假 annual leave / holidays
- 保险 insurance
- 奖金 bonus
- work-life balance

●观点：员工福利也是必不可少的。
Furthermore, employee benefits are essential.

●举例：当一个职业人享受到带薪假期、医疗保险、工作与生活的平衡等各种员工福利时，
When a professional is entitled to a variety of employee perks such as paid-holiday, health insurance, a balance between work and life,

●进一步结果：他的工作满意度可以明显提高，对雇主的忠诚度更高。
his job satisfaction can be significantly improved, with more loyalty to his employer.

Some people think young people should be free to choose their jobs (=based on own interests and passion),

but other people think they should be realistic and think more about their future (=payment, platforms).

Discuss both views and give your own opinion.

有人认为年轻人应该自由择业，但也有人认为应该实事求是，多想想自己的未来。

How realistic is the expectation of job satisfaction for all workers?

应用

【BP1-观点 A】①认为年轻人应该自由地追逐自己的事业的人认为兴趣是一个重要因素(中心句)。
②原因是自由选择可以让人们追随自己的兴趣，研究表明，兴趣是动力和热情的必要催化剂(解释)。
③因此，年轻的专业人员有动力去精通自己的工作，而不是仅仅追求反等好(进一步的结果)。
④反之，如果他们做的是自己不喜欢的事情，那么追求热情所带来的精益求精的动力就会消失(反向论证)。

①Those who believe young people should chase their career freely cite interest as a significant factor.
②The reason for this is that free choice allows people to follow their interests, and research has shown that interest is a necessary catalyst for drives and enthusiasm. ③As a result, young professionals have the impetus to master their job rather than merely aim for good enough. ④Conversely, if they were doing something they dislike, then the drive for mastery that would have come with pursuing their passion will disappear.

1. cite / see / consider / regard A as B：把 A 看作 B
常用于 DISCUSSION 题型解释别人的观点：Those who believe zoos should not be allowed to open cite the cruelty imposed on animals as a significant factor. 那些认为动物园不应该开放的人，把施加在动物身上的残酷看作是一个重要因素。
2. follow their interests 追随自己的兴趣
3. catalyst /'kætə(ə)laɪz/ 催化剂
4. drive 作名词相当于 motivation，impetus /'ɪmpjʊtəs/，都表示动力

【BP2】①此外，与家人共度长假，可以提高劳动者对雇主的满意度，从而激发他们的工作热情(中心句)。
②家庭关系对一个人的工作满意度有着巨大的影响。③当一个人被赋予与家人共度一个快乐的假期时，他与家人的情感纽带就会得到加强，使他更加投入到工作中去(解释)。
④相反，如果他长期没有与所爱的人共度美好时光，他可能会遭受家庭关系的恶化，精神压力更大，心烦意乱(反向假设)。
⑤导致他无法专注于工作，工作效率直线下降(进一步的结果)。

① Furthermore, spending a long holiday with families can enhance workers' satisfaction towards their employers and thus fuel their passion for work. ② Family relationships have a tremendous influence over a person's job satisfaction. ③ When an individual is entitled to a happy holiday with his families, his emotional bonds with family members will be strengthened, making him more committed to his job. ④ In contrast, if he did not have quality time with those he loves for a long term, he might suffer a deterioration in family relationship, having more mental stress and distractions. ⑤ As a result, he could not focus on his work, with his efficiency plummeting.

- Enhance satisfaction towards sb. 提高对谁的满意度
- Fuel passion for work 激发对工作的热情
- Strengthen emotional bonds 增强情感纽带
- Be more committed to job 更投入到工作中
- Quality time 美好时光
- Suffer a deterioration in family relationship 遭受家庭关系的恶化
- Mental stress 精神压力
- Distractions 心烦意乱

【BP3-观点 B】①另一方面，很多专家认为，年轻人在找工作时必须考虑物质因素和自己的未来(中心句)。
②这是因为有些职业具有很大的潜力，可以带来财富和地位，而有些职业则不然(解释)。
③例如，一个程序员在硅谷可以拿到几十万美金的年薪，但一个普通的计算机老师，在学历相近的情况下，收入只有这个收入的四分之一(举例)。
④如果不将现实因素纳入职业规划，年轻的求职者可能会选择一条平庸的道路，日后可能会后悔(反向论证)。

①On the other hand, many experts believe that it is vital for young people to consider materialistic factors and their future when seeking a job. ②Indeed, some occupations have great potential that can bring wealth and status, whereas others do not. ③For instance, a programmer can get paid hundreds of thousands of dollar annually in Silicon Vally, but an average computer teacher, with similar qualifications, just earns a quarter of this income. ④Without incorporating realistic elements into career planning, young job seekers may choose a mediocre path which they may regret later.

- the public = average people = ordinary people = normal individuals 普通人

【结尾段-我的观点：强弱】①最后，我想说的是，一个年轻人应该按照自己的兴趣来决定做什么，否则，他可能会缺乏动力。但是，考虑收入和未来发展也是必要的，毕竟每个人都希望有质量的生活。③有可能，年轻人可以在这两方面取得平衡--做一份他喜欢的有前途的工作，这已经被很多青年企业家的故事所证明。

①In conclusion, I would say a young man should follow his interest in deciding what to do; otherwise, he may lack motivation. ②However, considering earnings and future development is also necessary--after all, everyone wants a quality life. ③Possibly, young people can achieve a balance between these two sides--doing a promising job that he enjoys, which has been proven by the stories of many young entrepreneurs.

应用

高中毕业出来直接找工作
It is better to get a job straight after school.

●观点： it is believed that it is preferable to acquire a job after school rather than going to university.

●解释： This is because many young persons have little interest in studying at university, and they would waste four valuable years with mediocre or even miserable performances if they did so.

●对比： In contrast, if they choose to do an inspiring job when they leave school, it is more likely for them to make achievements, as their passion for work will be fueled, with their potential materialised.

●举例： This has been proven by the stories of some legendary entrepreneurs such as Steve Jobs and Mark Zuckerberg.

上大学才能实现事业成功
Studying at university or college is the best route to a successful career

●观点： However, advocates of tertiary education argue that this is the most reliable way of becoming successful in modern society.

●解释： They point out that today's job market has fundamentally changed in which most occupations require job applicants to possess a college degree; otherwise, they will not even get an interview opportunity.

●进一步的结果： This is why millions of students across the world are striving to get a place in universities, as they have realized that this is the best chance for them to get employed in a promising industry, with a lucrative remuneration package and generous employee benefits.

●反向论证： Without a bachelor degree, it is challenging for a job seeker to defeat graduate contenders.

高中毕业出来直接找工作
It is better to get a job straight after school.

●观点： On the one hand are those who suggest that young people should work as soon as they graduate from high school

●解释1： because by doing this, these young men can accumulate much more work experience compared with their peers going to university.

●举例： In some occupations such as plumbers and construction labours, practical experience is more valued than academic qualifications.

●解释2： Also, with more working years, young people can have a bigger chance to find out what their real interest is and then become devoted to it.

●进一步的结果： This is important for developing a man's career, which has been proven in many entrepreneurs' biographies.
